Are we Engaged in War!

This question is often suggested to the reflecting mind, and we confess there is serious ground for doubt upon the subject, when all the facts of current history are fresh in the mind and comparisons are instituted between the lenity exhibited by our Government and the usages of every other civilized and commercial nation in time of war When war is about to be levied by any power against another, the citizens of the country against which it is to be declared are given a reasonable length of time in which to close up their business and leave the hostile soil Thus a wise and just measure in more senses than one It precludes the residence of a large number of alien enemies beneath the protection and to the detriment of the war making nation, requiring those aliens to seek the protection of their own or some neutral people, thus giving the authorities not only the power of ascertaining and commanding the entire strength of their adherents, but protecting them from the general espionage which must else prevail

It is a principle of common sense that a country in war should not relieve its enemies of the onus of supporting and protecting their defenceless, yet the fact is, in regard to the war now raging through the United States that the Southern men in hostile array against the Government are not called upon to protect or defend their women and children they can afford to take desperate chances, and if defeated, retreat, while their women and children are protected by the Stars and Stripes in Northern homes and they have no "household gods" near the contested soil to defend. There is no doubt that to-day, while we are sending the best blood of our country to be shed in its defence on Southern battle fields, we are enveloping beneath the folds of our Flag in the North all that is dear to nearly a quarter of million of rebels in arms We are thus relieving the rebellion of any necessity for detaining regiments and brigades for the general defence of the country not immediately occupied by our troops and further of what would now be a serious if not fatal drawback to the rebel cause, the necessity of their providing adequate and constant supplies for the support of their non combatting and non producing population Their mothers, wives, daughters and sisters are not only safe out of harm s way but they can to no inconsiderable extent help their male war factors by a thorough system of espionage mail carrying and smuggling In this, our country is not just to itself Again, there is not a State or Territory in the Union but what contains men enjoying all the privileges of citizenship while they daily and hourly openly avow their attachment to and sympathy with the cause of treason and without concealment do what they can to weaken our Government and aid the rebellion In fact it is said to be unsafe for a man to avow his loyalty to his country— and this in the free enlightened and loyal North

If the rebellion is to be crushed out—if the red current now flowing in widening channels through southern fields is real *blood*—it is time that the blossoms of rebellion in the North were clipped off The bud cannot be nipped—the season is too far advanced We would not be understood as desiring to cast censure upon those who administer our Government for the condition of things alluded to above under all the trying circumstances of the case they have done all that could be done in the time which has elapsed But lenient measures only encourage outspoken treason, until, like the deadly upas, it springs up to spread its deadly atmosphere in the precincts of every county and State The successful prosecution of the war requires a recognition, and application of the principle governing nations as regards "alien enemies" if they are enemies, and not aliens, they should be made to do their duty to their government or alienate themselves in body as well as in spirit

CHRISTIAN UNION MEETING LAST NIGHT —The M E Church edifice was early filled last evening, upon the occasion of the address of Rev Dr. Patterson, Agent of the Christian Commission The services were assisted in by Rev Messrs Atkinson and Caffrey Dr. Patterson occupied a little more than two hours in portraying the necessities for and origin of the U S C Com , the nature and extent of the work it had accomplished, and made frequent allusion to incidents which transpired under his own observation during his experience with that body at the East. He held the vast audience spell bound during the entire evening, except when their feelings found vent in slight manifestations of applause A collection was taken up amounting to $571 05 in coin, and $494 10 in currency, equal to $1,364 60 in legal tender notes This evening, if the wire is in order, the amount will be expended to our credit in Philadelphia. The Rev Dr was listened to in the morning yesterday, at the Presbyterian church and fully justified the reputation which had preceded him for learning, eloquence and piety in an interesting, instructive and patriotic discourse

Rebels with 40,000 Infantry and 15,000 Cavalry Destroy the Railroad near Winchester.

NEW YORK, Aug 18 —The *Commercial's* special says that no apprehensions are felt for the safety of Sherman's communications The military authorities are confident that under the dispositions lately made, his line cannot be seriously disturbed

It is quite certain the draft ordered for September 5th will be commenced on that day The enrollment is completed

A Hilton Head letter of the 11th reports that a blockade runner got aground at Sullivan Island near Fort Moultrie She was discovered at daylight and opened on by our vessels The firing was kept up until she was a complete wreck Considerable of her cargo was evidently destroyed with her, but considerable will be saved by the wreckers

The firing is still kept up on Sumter and the city Deserters say our firing does great damage, as it is directed at the weakest points of the Fort This is attributable to Foster's knowledge, acquired while there The rebels express a great fear lest the continued bombardment of points by no means impregnable will ultimately interfere with the safety of their casemates, which are much weaker defenses

WASHINGTON, Aug 18 —The operations of our army on the James river up to yesterday morning resulted in advancing a part of our lines further We captured two lines of rifle pits and 350 prisoners

This morning the rebels opened a vigorous fire which extended along the whole line from the Appomattox to Jerusalem plank road, and lasted two hours It was thought to be the prelude to an attack

Heavy firing has been heard in the direction of Butler, but nothing is known about it

The *Herald's* Washington special says that the reported movement of General Sheridan in the valley is not regarded as a retreat, but a manœuvre for a position commanding all avenues to the Potomac

CAPT KELLY.—We learn that this officer has been replaced in command of Fort Klamnath, by order of Gen McDowell It will be remembered that he was ordered by Colonel Drew to the Dalles on 'recruiting service' —in other words to get him out of the way Capt Kelly is one of the most efficient and capable officers on the coast and we regret that circumstances consign him to garrison and recruiting duty —*Statesman*

STOLEN —On last Saturday night, the 13th Thos Smith, of Douglas county, while camped in the Long Tom country had one of his horses stolen from the corral in which it was placed for the night The next morning Mr Smith came to town and telegraphed ahead with the view to catching the thief The telegraph proved too fast for the thief and he was arrested at Oakland on Sunday The result of this midnight raid will be a sojourn at Portland for a time —*State Journal*

WASHINGTON, Aug 19 —A letter from the Army of the Potomac at noon on the 17th says

The second corps having been unsuccessful in the attack on the enemy on the north side of the James river on the 14th, fell back to a safe position, which was occupied until yesterday, when another assault was determined on and carried out successfully The enemy were driven from their works with a heavy loss We captured several hundred prisoners and some heavy guns Our loss is quite severe We hold the position The cavalry under Gregg had an engagement with the rebels and drove them from their works near the New Market road, but were finally forced back Col Gregg was severely wounded.

The channel to Dog river is unobstructed The naval and land forces are confident of success

At a late hour last night we heard that Farragut had demanded an unconditional surrender of the Fort which was refused by the commander who said, he had six months' provisions and that he would resist to the last moment. Granger's forces in the rear cut the communications with the Fort

WASHINGTON, Aug 19.—The Richmond *Sentinel* of the 17th contains the following

NEW YORK Aug 19 —The *World's* Washington special of the 18th says

News from Shenandoah valley to day is favorable Sheridan is still pushing Early up the Valley compelling him to retreat from point to point in every encounter

Considerable uneasiness is felt, but the reports are so conflicting that it is impossible to obtain an exact account of the state of affairs

WASHINGTON Aug 18 —The attention of the War Department has been called to the fact that the insurgents in Kentucky Tennessee and Missouri have endeavored to fraudulently and treacherously obtain the benefit of the President's amnesty for the purpose of preserving their property from the penalty of crime or securing themselves from punishment for the commission of arson, robbery and murder Order has been issued to the commander of military service to prevent the improper administration of the oath to persons for any other purpose than the restoration of peace and the establishment of national authority

CHARLESTON Aug 19 —300 mounted rebels armed with navy revolvers, under Woodward attacked Hopkinsville at 4 o'clock this morning and were repulsed by the garrison A second charge was made in which Woodward was mortally wounded and Capt Spurlin The rebels are still hovering in the vicinity and it is expected that another attack will be made

SYRACUSE N Y August 18 —Vallandigham addressed a mass meeting here to-day He said that he expected the nominee of the Chicago Convention would be pledged to the suspension of hostilities and a Convention of the States and that a majority of the delegates from the Northwest were committed to that doctrine He believed a reunion of the States to be possible. The South had proposed through the President and through his agents to meet the United States and see if they could not agree They are tired of war and want an armistice and a Convention He declared that with a republican form of government it was impossible to keep the States together by force of arms, and that he was for trying reconciliation and compromise

Resolutions were adopted which declare that the country has been passing through a fearful political convulsion, that violence has been attempted under the mask of patriotism, and call upon the people irrespective of party, to aid in obtaining a permanent suspension of hostilities and the perfection of some mode of reconstruction which shall again unite the country on a lasting basis of peace.

That it is the duty of the Chicago Convention to give expression to this spirit of peace, and declare it to be the purpose of the Democratic party to cause this desolating war to cease by calling a National Convention in which all the States shall be represented in their sovereign capacity, and that to this end an armistice should be declared

That if the Convention shall place another war candidate and platform before the people there will be no real issue to make

That the candidates already nominated represent all who cling to war, and it is sound policy to gather together under our banner all who entertain opposite sentiments and are in favor of restoring the country to its former condition of prosperity and happiness, which is only to be obtained by the election of a President pledged to the support of a peace policy

That we solemnly protest against the usurpations and lawless dispensations of the present Administration and warn it to desist from encroachments upon the rights and liberties of the citizens of our State

That we will not tolerate the rule of martial law, military interference with the elections or any more arbitrary arrests of citizens, and that to the maintenance of this we pledge our lives, fortunes and sacred honors

That the reply of President Lincoln to Clay and Holcombe furnishes unmistakable evidence that the party now in power have deluded the people into granting them unlimited means for the purpose of preserving the Union which they have used and are still using for the base end of overthrowing State institutions and advancing party interests and establishing themselves in permanent despotic power

This evening at the same meeting the principal speaker was John B Weller of California He reviewed at some length the history of the Administration, denounced as arbitrary and unconstitutional many of its acts, and expressed himself in favor of an armistice and a Convention of the States, believing the people of both sections wanted peace

Oregon State Sanitary Fair

To the Citizens of Oregon

It is proposed to hold a Sanitary Fair at Salem, during the State Fair commencing on the 27th of September next In view of the urgent necessity of the Sanitary Cause and the lateness of the time allowed to make preparations, it is ardently hoped that every friend of humanity, and every lover of his country residing in Oregon, will respond to this call

We can say to those at a distance, that ample room and shelter will be provided for all their contributions

In suggesting these committees we presume that some will be unable to act to all such we would say, procure a substitute; and should there be sections of country where no committees have been appointed individuals will please act for themselves, and come to the Fair, and see that their donations are on hand, so that no section of country will be unrepresented

Oregon has heretofore responded nobly to these calls of humanity and now is no time to fail or falter, while every telegram brings the sad news of brave men fallen and the work of carnage and death still going on It all we, while peace and plenty falls to our lot, forget our bleeding country

To the Ladies of Oregon, we most especially plead, know in full well that if we have their united support, success will crown our efforts From every woman in the State we crave some article of handiwork Every description of ornamental work which busy fingered ingenuity can frame, to the long list of knitting, from a pair of socks to the most elaborate shawl; in needle work from the baby's bib to the finest dress in clothing for men women and children let the variety be so complete that no interest may be unrepined Every article of female handiwork that will bring enough to pay for time and material

To the farmers we look for help let your offerings be as generous as your hearts and no a kitchen will be one important feature of the Fair nothing will be amiss whether from the products of the soil, your dairy or your cattle

From the merchant and manufacturer, miner and businessman let us have a sample of his wares or the work of his hands; so that our young State may be fully represented in all her growing wealth and resources

The County Committees, whose names are below, are requested to solicit and receive contributions and arrange for their being forwarded to Salem at the proper time It is deemed that the County Committees should appoint sub-committees to aid them in their work, each member or committee recollecting if they cannot act themselves to endeavor to procure substitutes, so that there may be neither neglect nor delay in making the necessary arrangements

All organized Sanitary Aid Societies are invited to give this matter their especial attention

RAIN AT LAST —Saturday was ushered in by a drizzling, doubtful rain storm and throughout the day the clouds were banked up over us occasionally emitting large cold drops, by way of variety for the unvarying round of naught but sunny skies and soft breezes, which in the course of a few years might perhaps become monotonous. For weeks together these fresh spicy breezes have gently wafted themselves to us from the lovely islands of the Pacific loitering along the mountain sides to play among the evergreen boughs of the groves of waving pines But such lovely weather could not last always the all wise Creator has ordained that with the human race "variety is the spice of life and has seen fit to give us fair and indifferent weather by turns promiscuously The shower of Saturday was thrice welcome for the dust was getting intolerable and vegetation withering, pining and dying

A POOR RULE —Common consent admits that a rule which does not work both ways is a poor rule and it is about true We have a system on the coast of making change in which Portland is to exempt that may be considered a nuisance in the sense of the term Why it is that dealers in kinds of goods deal out their wares in "two bits," etc, is a mystery, as it is intended for fifteen cents, and a quarter of a dollar Why not adopt the decimal system of the people at once which is good enough for us to give a dime for a bit's worth of anything Be kindly informed that the goods cannot be had for any such money, but hand out any change you get with cent in change, with cent in return The dealer never gives back the cent he receives but he begins no such piece of money known to every man, woman and child as the dealers profits will however always be the losers What a petty but annoying system it is, an absurd system

TREASURE BY THE STEAMSHIP —The C S N Co s steamer *Pacific*, A. M. Burn s Commander which sailed on Saturday last, for Victoria and San Francisco, carried a large number of passengers, and $166 485 52, in treasure, a list of the shippers of which is herewith appended

Wells Fargo & Co —	$95 000 00
Allen & Lewis —	25 000 00
Ladd & Tilton —	18 000 00
Oregon Steam Navigation Co	8 485 00
Knapp Burrell & Co	6 750 00
Jacob Hamm	1 20 0
Total	$166 485 52

We have the figures on three different lots in private hands, representing $64 000, but the holders prefer not having their names appear in connection with it Other lots are certain enough to make a total shipment of at least half a million dollars in bullion The shipment of freight per same steamer were as follows 4150 quarter sacks flour, 100 sacks wheat 174 boxes fruit 10 kegs butter 15 kegs eggs 69 sacks bacon 4 packages furs 6 cases merchandise 60 head sheep

RAIN AT LAST —Saturday was ushered in by a drizzling, doubtful rain storm and throughout the day the clouds were banked up over us occasionally raining large cold drops, by way of variety for the unvarying round of naught but sunny skies and cool breezes, which in the course of a few years past perhaps become monotonous For weeks to come these fresh spicy breezes have gently wafted themselves to us from the lovely islands of the Pacific, coming along the mountain sides to play among the evergreen boughs of the groves of waving pines But such lovely weather could not last always the all wise Creator has ordained that with man change is variety is the spice of life, and in order to give us fair and indifferent weather at various promiscuously The shower of Saturday was thrice welcome for the dust was getting intolerable and vegetation withering, pining and dying

A POOR RULE —Common consent admits that a rule which don t work both ways is a "poor rule, and is about true. We have a system on this coast of taking change in which Portland is not singular, that may be considered a nuisance in every sense of the term Why it is that dealers in all kinds of articles sell their wares by the *bit* in the west, etc, is a mystery, when it is plain that for fifteen cents, and a quarter of a dollar we can adopt the decimal system of the American people, once which is good enough Attempt to purchase for a bit worth of anything and you are told that the goods can t be sold under a dime, or buy but hand out a quarter and you get change with "can t make it any other way" The dealer never gives back fifteen cents, but keeps a two cent piece of money known to our race as "a V" and the dealer's profits will show that the purchasers are always the losers It is a one sided arrangement out What a pity that it won't work both ways It is an absurd system

STEAMBOAT MATTERS —The broken shaft of the *New World* was returned from the Benicia Iron Works on the steamship *Pacific*, and was taken on board to be placed in its old position on Saturday last The shaft we glue something over six tons The *New World* Capt Black has quite recently been engaged of her machinery and now lays at the old wharf, the repository for decoying boats, below this city The *Wm Penn Buck* was built in Portland half a few years since and looks outwardly to-day very well, but she is of no further use as a steamer to the Company who own her, in consequence of her liability to the trade. The old hulks have gradually surrendered their places to such crafts as the *Wilson G Hunt* and *New World* The dilapidated remains of the steamers *Jennie Clark* and *Independence* will be consumed to the flames as soon as the water recedes sufficient to leave them "high and dry The steamer *Julia* and *Express* will soon be the only reserves of the O S N Company in this city both of which are yet good boats.

PERFECT GOLD DUST —We were shown yesterday some specimens of the Snoke gold, taken out by rocker in the new diggings, near Victoria. It is splendid dust valued at from $18 25 to $18 47 per ounce. Mr Keyes a tailor formerly of Portland, has a claim on the river a tributary of Snoke, from which he is taking $100 per day to the rocker, worked by three men On Thursday last it was reported in Victoria that another creek had been discovered from which $6 to the pan was taken as a prospect After which could be rode over in three hours, from Victoria to the heart of the diggings, a distance of Victoria, notwithstanding which three towns, rivals of Victoria, had sprung into existence on Snoke harbor Our information leads to the belief that the mines are good, but their extent is yet unknown and crowds are flocking to them daily, for which reason it is not advisable for parties to be too hasty in leaving this section for them

FROM ASTORIA —By the arrival of the steamer *John H. Couch* from Astoria, on Saturday evening we have reports from some of our pleasure seekers at the beach who appear to be entering into the merits of a general summer ramble and watering place spree Had the rains continued in this section we should think with Mrs Partington that these new going expect something besides water, perhaps a taste of native wine The bark *Samuel Merrill* sailed for San Francisco on Saturday morning The bark *Helen W Almy* had landed the big guns at Cape Disappointment all right, and would have been discharging to day Capt. Flavel has been awarded the contract for building the wharf at Cape Disappointment

DISCOVERY OF COAL IN THE COWLITZ RIVER VICINITY —In connection with the numerous discoveries made in various parts of the country around us quite recently, we have the results of an exploration of the country bordering on the Cowlitz river, showing evidences of the discovery of large beds of what is supposed to be anthracite coal So certain are the discoverers of its genuineness they have already entered large tracts of the land, at the Vancouver Land Office. This may well be called the age of discovery with our people, who have caught the mania for explorations and are finding the richest wealth beneath their own door steps

THE AGENCY OF MOUNT HOOD —A correspondent writes us in reference to the dispute as to whom the honor belongs of having ascended Mount Hood for the first time, and refers to Alexander von Humboldt, in "Cosmos," volume v , pp 789, according an account in August 1853 by Lake, Travilliot and Elder This was a year previous to the ascent of J J Dryer and others which we announced a few days since.

RECORDER S COURT —Business before the Recorder for the past week has been more active, winding up on Saturday with one commitment to the city jail for two days.

BALLOON ASCENT.—A paper balloon was sent up from in front of the Bank Exchange in this city last evening It presented a very neat appearance for so small a model of the aerial craft

THE NEW CITY CHARTER.—There will be an informal meeting at the Council Chamber this evening of the board of Councilmen, to take into consideration matters connected with the new city charter

SCHOOLS.—The Portland Academy and Female Seminary, and the schools under the charge of the Sisters of Charity, commence new terms this morning

SPECIAL SALE —There will be a special auction sale of furniture this morning by Mr A B Richardson, at the residence of Mr Sellers, between Oak and Stark, on First street. See advertisement

"EMBROIDERED ON A SEWING MACHINE ?—I was not aware such elegant work *could* be done in such a manner, remarked one lady to another in our presence lately She examined the trimming of a charming cloak which adorned its fair owner "Oh yes was the reply, 'it can be done and beautifully as you perceive, but only by one of the sewing machines in use—the Grover & Baker

Pierson, the agent in this city, can show specimens. Call and see them

Oregonians should test the merits of Dr HOSTETTER S STOMACH BITTERS While it is highly palatable as a beverage, it is unequaled as an invigorator In the pursuit of fortune at the mines many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever It is the very article that has so long been in demand at the mines Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits Yet the Bitters is the safest of all stimulants Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter and he will find it a certain safeguard to health —Sold by Druggists and dealers generally jy26daw

The National Rally.

Though the tempest of strife and storms of disunion
Unfurl their dark wings over rebellion and night
We'll trust to the power that has made us a Union
To guide us through darkness, to justice and right,
Our hearts shall be true to the pulse of the Nation
In marches of freedom, majestic, sublime—
In fame with each changing and onward vibration,
That echoes along the grand circles of time
On freemen, on, let it swell from the valley!
On, freemen on let it ring o'er the plain!
'Tis the call of our Nation oh let us all rally
Rebellion to conquer, and glory to gain

Swell forth, oh thou tocsin of war! there is valor
That wakes to your sounding that springs to your cry,
That bears on its armor no fear and no pallor
Whose standard is peace—enough to gain it we die—
Swell forth, oh thou tocsin the soul of our Nation
Is ever in tune with the cause of the right,
A Genius reigns over the laws of creation,
An Angel of Progress—a Goddess of Light
On, Freemen, on! let it swell from the valley
On, Freemen, on let it ring o'er the plain!
'Tis the call of our Nation oh let us rally,
Rebellion to conquer and glory to gain!

Away to the ranks where the strife is advancing!
Away to the plain where the warrior lies low!
Away to the field where the sabre is glancing
Its venomous steel to the breast of the foe
Oh sound the alarm from border to border!
Ring out the new song of our Nation's release!
O'er the last pale foe and rebellious marauder
Unfurl the white banner of triumph and peace
Sound the alarm! let it ring o'er the valley
On to the rescue from city and plain
'Tis the call of our Nation, O, let us rally,
Rebellion to conquer, and freedom to gain!

Missouri had contributed up to July 1st, an excess of 2 610 men over her quota under all the calls up to that of March, 1864

Voting by ballot adopted in Victoria, has abated "so much noise and fear" that its friends in England are more anxious than ever to introduce it at home

There are in England and Wales 44 695 lunatics under care, in public and private institutions The Commissioners in Lunacy report that it is largely increasing of late years

Gov Andrew of Massachusettes was the recipient lately of a large turtle weighing 302 pounds, all the way from Hilton Head The Aldermen of the "hub" had a special meeting immediately

A little fellow not more than five years old hearing some gentlemen at his father's table discussing a familiar line "An honest man's the noblest work of God" said he know it was n't true, his mother was better than any man that was ever made

Queen Victoria is losing her popularity and the confidence of the British people It is intimated that her conduct indicates more than mere eccentricity of mind Her interference with the administration of affairs is thus spoken of by the Glasgow *Examiner* "The feeling grows, the word is freely passed, that in the privacy of the palace ministerial action is directed and controlled in an unconstitutional manner, and that the united will of a great nation is threatened with subjection to individual irresponsible authority"

The St Louis *Democrat* of July 15th is authority for the statement that the New York daily journals would raise their prices on or about the first of this month to a 5 cent standard The increased and increasing cost of all the materials that enter into manufacturing newspapers is urged as the reason for this step The price of the New York *Herald*, *Times* and *Tribune* before the war was two cents a copy It was afterwards raised to three cents and remains at that unless lately raised again as above

THE NORTHERN LIGHT CHASED BY TWO SUSPICIOUS VESSELS.—The steamship *Northern Light*, Captain Tinklepaugh, arrived at this port this morning from Aspinwall which port she left on the 10th inst The captain reports that on the 17th inst, at noon, in latitude 14, longitude 74 he saw a two-and-a-half schooner rigged propeller steering westward under steam and canvass, which, as soon as she espied the *Northern Light*, altered its course so as to keep her off The suspicious craft continued to change its course for that purpose till the aggregate alteration amounted to sixteen points, or from west to south, and then to east She had the English flag flying and was an English built vessel, with a short bowsprit and long bilged head, she carried a fore and mainsail and jib, and her masts were in one stick, with no topmas Captain Tinklepaugh saw at the same time, a topsail schooner, with short fore mast, and a hermaphrodite brig The schooner crowded and stood after the *Northern Light* when the manoeuvre made for her Taking it altogether, the actions of the three vessels were suspicious, to say the least The *Northern Light* altered her course from time to time to keep the steamer at a respectful distance When nearest the *Northern Light*, the strange craft was about four miles off, and the chase was then given up It continued for one hour and fifteen minutes The propeller steered away with—*New York Evening Post, July 19th*

FINANCIAL AND COMMERCIAL.

PORTLAND, Friday August 19th, 1864.

The market to day does not warrant an increase in trade, and the greatest activity may be expected in a week or two There are fewer changes to note in wholesale prices than might be expected since the operation of the new excise law making an increase of duties The law has been received at the office of the Assessor in this city and we have already published the schedule of articles and additional taxes imposed

Collector Patch, of the Internal Revenue Department, at San Francisco, has instructions from Washington to collect 40 cents gallon on Domestic Spirits shipped from New York after July 1st upon which duties have not been paid The impression has been that all Domestic Spirits en route to this coast in bond at 60 cents per gallon would come free of any additional duties under the new law but this is a mistake

We hear of some sales of new white Wheat to day at $1 20 per bush red wheat is purchased at $1 10 The amount coming in is not large

There is some inquiry for Barley at 2@2½ cents Oats are selling at 65 cents per bushel

Baled hay is active at $16@$18 Average prices from wagons retail are $14

City dealers are paying for country produce to day the following prices

Hams 2½@23 cts Bacon 19@20 cts

Eggs 33@35 cts for shipment to the Columbia There are also large quantities put up and awaiting shipment to Victoria per str *Pacific*

Butter firm at the old prices 28 to 37½ cents

Lard in active demand at 12@13 cents in cans 16 cents

The fruit and vegetable market is abundantly supplied with a large variety Grapes made their appearance this morning, selling at 20@25 cents per lb Bartlett Pears in large supply at 10 cents retail Egg Plums 15 cents

The receipts of treasure from the mining sections have been heavy for the week and purchasers have been pushed for coin to buy compelling sales of right exchange at a discount of ¾ per cent to obtain amounts necessary for immediate use

Prices of produce and provisions in the Boise country remain nominally low Notwithstanding the Indian depredations on the Plains frequent arrivals from the eastern States, with large amounts of goods are announced

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent This, considered impossible by the scientific world, is attested by certificates of analysis from Dr J R Chilton of this city, and Prof Booth U S Mint, Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners (see 'American Medical Monthly,' July 8, 1856, page 72.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc
